## FIREPLACES

## Company Profile

Wessex Stone Fireplaces have been hand crafting natural limestone fire surrounds for over 21 years and our workshops lie deep in the heart of rural Gloucestershire on the outskirts of the Cotswold market town of Tetbury.

From this specialised site, English Heritage approved masons individually select the stone for its character, quality and colour before skilfully shaping your surround by mallet and chisel in the time honoured way that has remained largely unchanged for thousands of years.

As an ISO 9001 accredited company our commitment to quality and service are unsurpassed. We are proud of the skills and artistry employed by our masons to create your individually handcrafted surround.

## B e s p o k e   S e r v i c e s

Every home is slightly different and we reflect this with our surrounds. Much effort has been made to give you as much choice as possible straight from the brochure but we know that there will be instances where our sizes and styles just won't be for you. In these cases we can provide a unique bespoke design service completely free of charge. This can incorporate a uniquely sized fire surround from our styles to fit your home perfectly or we can design your surround from scratch.

## L i f e t i m e   G u a r a n t e e

We are committed to providing you with good quality natural stone fire surrounds. A new surround is a significant investment that creates a fresh individual dimension for you and your home. To allow you to enjoy your fire surround and have total piece of mind we are delighted to offer you our unique Lifetime Guarantee on all our surrounds. Please turn to page 30 For further details and how to register.

Look for our Lifetime Guarantee logo in the brochure:

### Jargon Buster:

Back Panel	This is the panel that fits in your surround to create the correct opening size for your fire and flue.
Inner Hearth	A slab of stone to sit inside the chamber to sit your stove, gas or electric fire on.
Linings	The wall linings of the inner chamber which can give your fire a truly wonderful finish.
Chamfer	The edge of the stone worked to give a 45-degree angle.
Kerb set	An additional feature to sit around the hearth and raise the front edge slightly.

## H o w   t o   O r d e r

Talk and discuss your requirements with your Retailer who will assist you with all the technical aspects of having a new surround and fire.

Order direct from the brochure through your Retailer in one of our standard sizes and stone types.

Or you can request a quote for your own unique design or sized surround and we will send you back, by fax, a technical drawing so you can check and talk about it with your Retailer (normally faxed within 24 hours).

Once you place your order we will confirm this with your Retailer and send a copy of the technical drawing from which our Master Masons will be working. Again your Retailer will be able to help arrange the installation of your surround but we also offer an installation service (For our surrounds only. Price on Application and subject to site visit).

All Wessex Stone Fireplaces come with an individually numbered authentication certificate along with your Lifetime Guarantee Registration Form.

## S t o n e   S a m p l e s

The Wessex Stone Fireplaces workshops lie deep in the heart of the rural Gloucestershire countryside on the outskirts of the Cotswold market town of Tetbury.

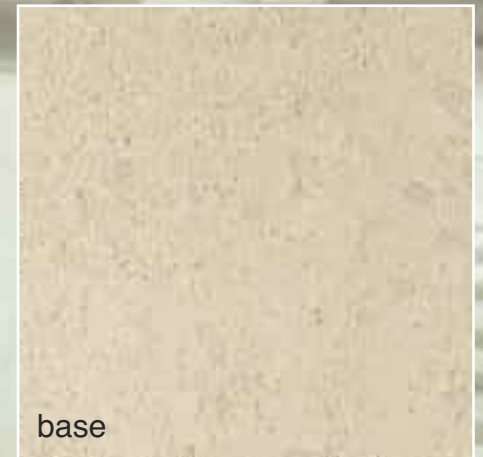

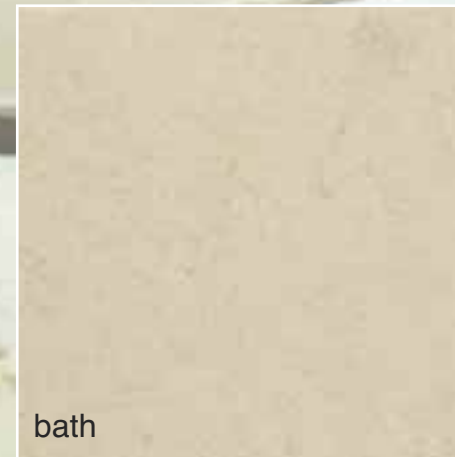

From this specialised site, English Heritage approved masons hand craft millions of years old natural limestone into beautiful and ornate fire surrounds.

Each stone component is carefully selected for its quality and colour match before being skillfully shaped by mallet and chisel in the time honoured fashion that has remained

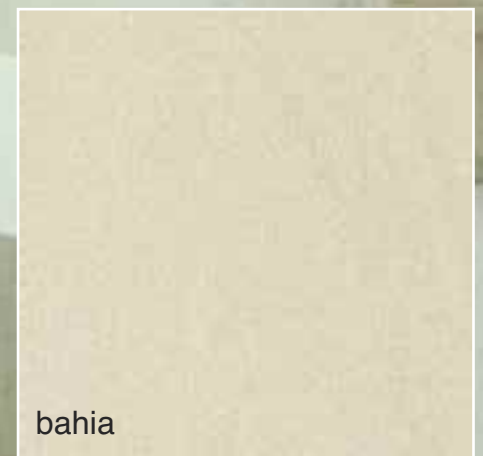

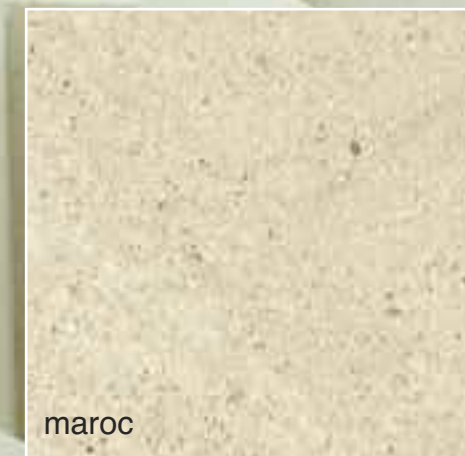

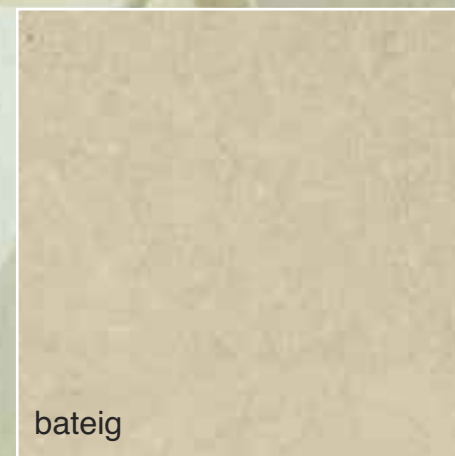

largely unchanged for well over two thousand years. Wessex Stone Fireplaces parent company Wells Masonry Services specialise in the creation and restoration of fine stone

architectural masonry, and is available to consult and advise upon this further area of interest, should you require it.
